Drop Throttle Oversteer

(The faster way around a corner)

By the time you get this magazine, I hope that I have already met most of you at the annual general membership meeting.

I am writing this on Thursday January 13th, two days away from leaving for the Caribbean on the second unauthorized seven day Porsche Club cruise with five other PCA couples. We are taking along a director, the tech chairman, the Goodie store proprietor, the co-rallye coordinators, and one of the social chairs. We are looking forward to tropical breezes, sandy beaches, some Porsche talk, and tons of great food. Next month, I will tell you how it went, maybe you can join us next year. I have never seen the movie Titanic.

This time of year is rough. I have two beautiful five speed Porsches sitting in my warehouse with the in-

surance on hold. I have been driving around (slowly) in my high riding, tippy automatic Jeep that always seems to need a wash. The 4 wheel drive works great in the snow, but it's just not fun. Good for slush and salt, but no fun. Can't wait for the spring.

The editors of the Scene, David and Heather O'Bryan, have told me one of their secrets for their upcoming editions. It seems that they are going to format the magazine into sections by activity. For example, in the rallye section there will be articles by the co-coordinators Tom and Phyllis Harwood explaining just what rallyes are and how they work, advertisements for upcoming rallyes, rallye results, other rallye news and tips, and year end rallye trophy point standings. Autocross, concours, club racing and social will have their own sections. At the back of each issue will be the cumulative year end PCA Chicago Region overall trophy standings. Should be very informative. I now have to go pack my tee shirts and sunscreen. I'll see you all at the Harry Carays/House of Blues dinner and bowling night downtown on February 12th.

Give everyone you like a Valentine. Don't lift in the corners.

-Bill

Below are some people that I would like you to get to know.

The Pattersons. Rip and Linda have been in the Region for a long time, Linda's father Wayne Potter was one of the founders of the region. Rip is an excellent driver of his pretty red 356C cabriolet. The Pattersons are the annual hosts for Potters Picnic and Concours, our longest running region event. They reside with their children in Grayslake, IL.

Mike O'Meara. He's our poet/singer/songwriter/actor. Ask him to sing and play you his song about driving high speed Porsches with a full bladder. Mike drives a silver 70's 911 and lives in Tinley Park, IL.

Dr. Bruce Rohner. Is always smiling, and is never seen more than ten feet away from Tim Weise. Bruce drives his really fast 944 Turbo around Blackhawk like he is being chased by bandits. Bruce lives in North Barrington with his wife Mary Ellen.

Rallye 'Round the Region

The first rallye for the year 2000 will be held on April 2nd. We want everyone to be prepared to enjoy their cars and the rallye. So please read the following which will help you be well prepared:

BASIC REQUIREMENTS FOR A GOOD RALLYIST:

1. A street legal car in reasonable mechanical shape--you don't want to break down in the boonies.
 2. Clock or anything that counts time; a second hand is helpful.
 3. A valid drivers license.
 4. Liability insurance although proof is not required in our local club.
 5. Clip board, paper, pencil and highlighter (post-it-notes are helpful).
- Be early to the start point so that you have plenty of time to read the Generals. When you arrive at the start point, find the registration table, sign the waiver, designate your class, pay your entry fee (if not pre-registered), and get your Gen-

eral Instructions and car numbers. Check your time piece with the Rallymaster's official Rallye clock which will be at a designated area near the registration table. Set your clock to match and put your car numbers on your car as the Rallymaster has instructed (usually the placement can be found in the Generals).

The Generals are one of the most important parts of a rallye. They should be read and reread by both the driver and the navigator before the start of the rallye, not after you are on the rallye route. About 30 minutes before the first car is off, the Rallymaster conducts a "Driver's Meeting". Both the driver and the navigator should be present for this meeting. Basically, the Rallymaster will go over the Generals and present any late-minute emergency changes that need to be used to keep you on course. The drivers meeting offers you the chance to ask and get answers to any questions you may have regarding the Generals and the rallye.

Ask plenty of questions and be sure you understand all the information in the Generals. After the meeting, don't ask questions of anyone who has a starting number coming up soon as they are preparing to start the

rallye.

You cannot ask any questions after you get your route instructions and are on the rallye, so be prepared early on during the driver's meeting. Route Instructions will be given to each entrant 10 minutes before their outtime. Each entrant should count the pages and be sure that they have a complete set with no pages missing. The Generals should also be checked to be sure that no pages are missing. Immediately, start reading the Route Instructions especially the odo leg, which should contain no traps. The Route Instructions should give you a certain length of time to complete the ODO LEG, so that you can leave any time after you get your Route Instructions. Be sure to re-zero at the outmarker. At the end of the ODO LEG, be alert and get your car up to the out marker a minute or two before your outtime, re-zero your odo and begin the rallye promptly at your outtime. Have fun!!!!

How to Keep Your Porsche Shining

Annual Concours School
March 12, 2000

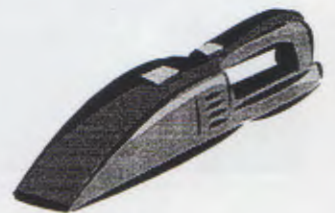

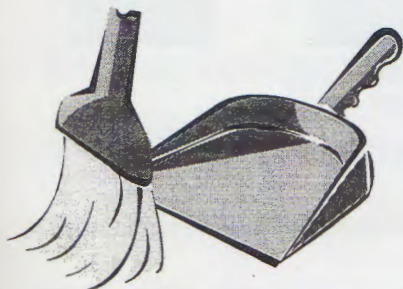

To keep your prized possession clean and sparkling you need to know what to use and how to do it. If you would like to try showing at our summer Concours events, you need to know what the judges will be looking for in all areas. Paint, interior, and engine compartments all require different cleaning and dressing products. Learn from our local experts who have won Concours events locally and at the National Parades. Even if you don't want to compete – learn how to clean, polish and wax the right way.

A guide to what products have been used successfully will be available. Vendors will also be presenting different products for your review. Dentbusters will do repairs on-site at reduced pricing for PCA members in attendance. Emmons Coach Works will display his goodies, and expect some surprise visitors as well. So come out and bring the family – especially the ones with small hands that can get into those difficult to reach places. And as a special bonus we will be having a Rallye School and chili-tasting contest which will be covered elsewhere in the *Scene* magazine.

Any questions, call:

Summer School Was Never This Much Fun!

By Wes Nowakowski

Here we are, Year 2000, and recently I've had the chance to kick back a bit and contemplate about the year gone by. I then came to realize that two summers of tracking have already blown by. A quick review indicated 15 days at Road America, 6 days at Gingerman and 5 days at Blackhawk Farms. Not all of these days were PCA Driver's Ed events, however. In addition to the fine instruction obtained through the PCA / Chicago Region, I furthered my driving education with supplemental training. Five out of the 15 Road America days were behind the wheel of a Skip Barber Racing School Formula Dodge. Two of the 6 days at Gingerman Raceway were spent driving a Formula Mazda with PRO-ONE Motorsports Academy.

I was recently asked why I do what some have called a dangerous and crazy thing, and why I spend money on drivers' education, both PCA and competitive driving schools? Well, those are good questions. Let's see if I can give a more rational answer than: it's really cool; I can get my speed fix; I like to drive various vehicles; I'm having a mid-life crisis (I'm only 38... and by the way, what is middle age?); and, I've always wanted to do this since I was a kid.

After some pondering, I've narrowed it down to four categories:

1. Self-improvement

2. Experience
3. Education
4. Economics

Ever since graduating from college and taking on my first Engineering job, I've been interested in the area of self-improvement. It seems that in order to move forward, one needs to occasionally raise one's own standard. This enables one to build confidence and can help in the development of new skills, even new driving skills.

This naturally leads to the desire for new experiences, and in some cases, radically new experiences. Participation in Skip Barber Racing School offered the opportunity of getting behind the wheel of an open-wheel Formula Dodge racecar. The first time I heard the specs on the car I had to laugh. With only a 4-cylinder engine, 135 horsepower, and a top speed of 130 miles per hour, I was not impressed. But, once behind the wheel of the 1040-pound car, I was humbled and came to respect the compact, open-wheel Dodge. Then came the opportunity to drive the PRO-ONE Motorsports Academy's Formula Mazda. The acceleration of this vehicle, with its 180 horsepower rotary engine and 1100 pound curb weight, will pin you to the seat. The lateral g forces in the corners are phenomenal, especially to a novice like me. Completing just a few sessions in either of the schools, one can go on to competitive racing at a premier track like Road America in no time, not to mention become more comfortable with autocrossing and everyday driving situations.

The greatest aspect of participating in the driving schools is the amount of knowledge one can obtain. What better way is there to learn a new skill than from someone who has been doing what you want to

do and mirror them? From identifying the correct line, negotiating the slalom, threshold braking, to the mysterious double clutch downshift (aungahh included), these are all exercises learned and practiced on someone else's car first. With instant feedback of one's performance, the driving schools helped decrease the fear and the surprise factors when driving my own vehicle on the track and reinforced the correct reaction to a particular dynamic situation. You learn from driving / racing instructors with years of experience, in a relatively controlled environment.

Finally, there is the financial aspect. The schools aren't cheap. However, the value and experience is substantial. There are also various packages available to suit the desires and needs of the student. In the long run, I think I'd rather pay for some education now, and utilize my car for the upcoming PCA driving events with confidence that I'll be able to drive the vehicle home after the event.

One additional item not listed previously but of utmost importance, is safety. Any activity we pursue in life presents some sort of hazard. However, the more we know about our surroundings, the more comfortable and fulfilling our experience can become. So, given the potential hazards of driving, I'll always be open to any Driver's Education and advice I can get.

For additional information contact: Skip Barber Racing School at 800-221-1131, or www.skipbarber.com PRO-ONE Motorsports Academy at 877-PRO-1-ONE, or www.PRO-ONEMOTORSPORTS.com

IT'S BACK!

O.N T.RACK C.OVERAGE

We asked you to stay tuned, you did, and now ***IT'S BACK!***

Coverage for Drivers' Education Events!

It took us thirteen months of hard work, and just in time for Track Season we are pleased to announce a new agreement with a major U.S. insurer to provide the insurance.

Thanks for your patience!

Do you like to drive your collector car? Do you have it insured through one of the collector vehicle, select auto, or specialty car policies on the market today but dislike the restrictions they place on its use? "Whadya mean I can't drive my Porsche to work once in a while?!" ***IT'S BACK!*** No drivers under age 21. No racing. (Drivers' Education is not racing.) No other restrictions.

Have you attempted applying for one of those other policies but were turned off by all the paperwork? "What am I, a circus animal jumping through all these hoops?"

IT'S BACK! Simple, one page application.

We've got what you need: a limited mileage (2500 or 5000 miles annually), high liability, agreed value, sensible deductible, full coverage automobile insurance policy including

Coverage for Drivers' Education Events!

Pricing is back where it used to be, too. A little more than those other guys, but about half of what the regular market charges. Phone us today for a quote. You'll be glad you did!

IT'S BACK!

Behind the Scene

Our aim is to have the new-letter in the mail to you by the 1st of the month. January got off to a very shaky start because of the combination with the annual directory. We will meet these dates in the future. We'd like you to be able to see the *Scene* for a few days before the next month's deadline. In case you do have anything to submit, please keep in mind that date is the 10th of the month for the following month's issue.

If you have anything to submit for the *Scene*, the preferred method is definitely via an e-mail to us at chicagoscene@pca-chicago.org. The fax number is 708-588-1785. Please feel free to call us at 708-482-0502 as well (before 9P please).

This is the toughest time of the year for me. Vroomm is waiting out the winter under the covers. I usually have thoughts of selling at this time of year, but never follow through with it. Be sure to loosen up and enjoy the upcoming Porsche-not-required social events.

-David and Heather

We know of one investment that always does well.

We believe one of the most profitable investments is an investment in relationships. At times like these, when the market can be volatile, that investment really pays off.

- Now is the time you need someone who understands your goals and risk tolerance.
- Someone who can help you adjust your portfolio in a changing investment environment.
- Someone who takes the time to ask the right questions, so together you can come up with the right answers.

If you want to talk to a Financial Advisor that truly understands the importance of a long-term relationship, call us at PaineWebber.

For information call Paul R. Joyaux, Financial Advisor,
at (800) 621-0684 or (312) 984-2392.

Thank you **PaineWebber®**
